### EDUCATION

2021 - 2024

Sheikh Burhanuddin Post  
Graduate College

### SKILLS

- HTML, CSS, Tailwind CSS
- JavaScript, TypeScript
- React, Next.js
- Node.js, Express
- MongoDB, MySQL, PostgreSQL
- Prisma

### LANGUAGES

- English (Fluent)
- Bangla (Native)

### PROFILE

I am a skilled full stack web developer with experience in TypeScript, React, Next.js, and Tailwind CSS. I excel at integrating front-end interfaces with UI libraries like ShadcnUI, Material-UI, Flowbite, and Bootstrap, and use Framer Motion for fluid animations.

On the back end, I have expertise in Next.js API & Server Actions, REST APIs, and databases such as MongoDB, MySQL, PostgreSQL, and Prisma. I have developed numerous complex CRUD applications, showcasing my ability to deliver robust solutions.

### WORK EXPERIENCE

#### Gym Admin Management

DECEMBER 2023

Full stack project

- Effortlessly manage member enrollments and promptly renew expired memberships for seamless administration and member satisfaction.
- Efficiently track and manage member data, ensuring timely renewals through advanced table features and filters.
- Access comprehensive member profiles, providing detailed status information for efficient and personalized member management and service.
- Utilize a dynamic dashboard for in-depth analysis of daily and monthly revenue, as well as trends in new member sign-ups, providing valuable insights for strategic decision-making and growth.

#### Food Ordering Website

March 2024

Full stack project

- Explore diverse food categories, from waffles to drinks, offering a wide selection.
- Effortlessly add items to the cart and engage in real-time chat with the owner.
- Easily search for food items and access customer reviews for informed decision-making.
- Discover various waffle types, from traditional to innovative, offering unique flavors and styles.
